SONY

Key Features

Do more with Android*

Personalise and control BRAVIA Professional Displays with Android. Create and download apps and use Googlecast to share content from a PC, tablet or smartphone through easy screen mirroring.

HTML5 support for simple box-free digital signage

The built in HTML5 platform makes it easy to create your own media rich signage, including text, graphics, video, live web feeds and IPTV content.

Convenient D-Sub 15 pin and HDMI connections

Link BRAVIA Professional displays to any PC with the D-Sub 15 pin, four HDMI input ports or Ethernet connection.

40", 48", 55", 65" and 75" BRAVIA professional Full HD LED displays

FWL-40W705C
FWL-48W705C
FWL-55W805C
FWL-65W855C
FWL-75W855C

Cost-effective, energy-efficient displays

Competitively priced, slim, energy-efficient: BRAVIA Full HD LED displays are the smart way to make your point in boardrooms, offices, public spaces, retail venues and schools.

Superior displays designed for business

Advanced control, Hotel Mode, HDMI auto wake-up, 17/7 operation or embedded HTML5 for easy digital signage creation; BRAVIA Full HD Displays are designed to suit all your professional needs in sizes from 40" to 75", so you always present a clear image.

Easy set-up and connectivity

Lightweight BRAVIA displays are easy to install with plentiful connections and Wi-Fi networking – just plug-in and go. Linking to smartphones or tablets is simple too, with screen-mirroring technology.

Peace of mind

Receive a completely new replacement model rather than repair as standard.

* excludes FWL-40W705C and FWL-48W705C

Features

Ultra Simplicity

Installation friendly

The slim, stylish display offers a wide range of mounting options, is VESA compliant and integrates neatly into any corporate, retail or educational environment.

Googlecast technology*

Easily cast content from professional and personal devices on to the BRAVIA screen. You can cast from Android™, iOS™, or your laptop.

Versatile control options

Easily control BRAVIA Professional displays remotely – including on/off, input signal select and adjust volume – over IP via RJ45, by web API, or via RS-232C. (RS-232C control requires optional HDMI converter box CBX-H11/1).

Automatic on/off feature

Easily programme your Sony BRAVIA with the On Timer feature to automatically turn the flat panel on /off.

Integrated media player

The timer function means BRAVIA Professional displays are easy to programme with all kinds of media content. Play a total of 37 different file formats, effortlessly, from the USB flash memory.

Slim, lightweight design

Enhance any business environment or public space with BRAVIA's stylish design and slim bezel. Our latest displays are all considerably lighter and slimmer than previous models for easy integration.

Full Personalisation

Built-in HTML5 for dynamic box-free signage

With BRAVIA Professional's built-in HTML5 platform you can create your own digital signage content, as well as send it to displays across the globe. You can include text, graphics, video and even live web feeds – with no dedicated hardware player needed; only a BRAVIA display and Internet access.

Interactivity options

Turn your BRAVIA Professional display into an interactive touchscreen with U-Touch overlays. Designed to fit seamlessly onto the BRAVIA screen, it's easy to set up and allows 6 multi-touch points for greater interaction. Contact your local Sony dealer for more information.

Integrated IPTV system

It is now easy to stream any IP feed directly to the BRAVIA display without any set-top-box or players. Save costs and get interactive channels, video-on-demand, an interactive menu, video security, live streams or information with full customisation and no player required.

Smart, customisable displays

Easily create or download applications to customise the BRAVIA display for endless possibilities with Android.

Web browser

The built-in browser means you can connect to the Internet to run apps and view web pages. You can use your smartphone or tablet to control the on-screen cursor and input text.

Customise your display settings with Hotel Mode

Disable input or remote control, remove labels and block buttons; customise and store advanced settings and features for specific requirements.

Environmentally friendly

Energy-saving ambient light sensor

Display brightness is automatically adjusted to suit ambient lighting conditions. This reduces energy consumption without compromising picture quality.

Energy-efficient LCD panel

The panel's LED backlight consumes less power than conventional fluorescent backlighting. Frame Dimming intelligently analyses picture content, adjusting backlighting to save even more energy.

Ideal for:

- Corporate presentation display
- Digital signage
- Video conferencing
- Education

Clear, crisp Full HD detail that will have your audience enthralled

PrimeSupport

All Sony Bravia Professional displays sold into the EU, Norway and Switzerland come supplied with a 3 Year PrimeSupport pack, offering unique services and benefits, including:

- Freephone telephone helpdesk support (00 800 7898 7898) in 5 languages.

- Receive a completely new replacement model rather than repair as standard.

In addition, optional PrimeSupport Plus packs can be purchased to add a 2 year extension of the standard 3 year PrimeSupport

and to give long-term assurance of expert support, technical assistance for 5 years from purchase date.
